AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

- 1-21. (Canceled)
22. (New) A laundry machine comprising a cabinet having a top wall, two side walls, a front wall and a bottom wall, said front wall having a lower edge portion spaced above a bottom edge of each side wall to define an opening in the front wall, said bottom wall having upper and lower substantially horizontal portions vertically and horizontally spaced apart and interconnected by a substantially vertical portion which defines a recess in communication with said opening for receiving a removable container.
23. (New) A laundry machine as set forth in Claim 22 further comprising a pair of vertically disposed inner side walls connected to opposite side edges of said upper horizontal portion and said substantially vertical portion to define the recess.
24. (New) A laundry machine as set forth in Claim 22 wherein said bottom wall and said inner side walls are made of plastic material.
25. (New) A laundry machine as set forth in Claim 22 wherein a space is defined above said bottom wall within which a tub is located housing a drum capable of rotating around a respective axis.

Amendment Under 37 C.F.R. § 1.111
USSN 10/810,606
Attorney Docket Q80770
June 7, 2005

26. (New) A laundry machine as set forth in Claim 23 wherein the lower horizontal portion of the bottom wall is connected to the front wall and the inner side walls defining the recess.

27. (New) A laundry machine as set forth in Claim 26 wherein lower support feet are connected to and extend downwardly from the bottom wall.

28. (New) A laundry machine as set forth in Claim 22 wherein a container on wheels is provided for movement into and out of said recess.

29. (New) A laundry machine as set forth in Claim 22 wherein opposed surfaces of said inner side walls are provided with respective guide means for supporting the container for movement into and out of said recess.

30. (New) A laundry machine as set forth in Claim 22 further comprising a base element mounted below and supporting said cabinet, said base member having a cavity in direct communication with said recess.

31. (New) A laundry machine as set forth in Claim 30 wherein a container is provided for movement into and out of a cavity in said base member.

32. (New) A laundry machine as set forth in Claim 31 wherein said container extends upwardly into the recess in said cabinet.
